

# Proposed Design N. Ferry St Pump Station

October 19, Open House  
City Hall Presentation

# Prospective looking east from Governor's Lane

# Prospective looking west from river walkway

Current historic building in foreground,  
new to west, generator behind

# Perspective from end of N. Ferry St.

# Three structures located in current fence line

West side fence line less than 30 feet into parkland (10–15 feet)

# North side fence line pulled back from existing river walkway

# Materials and window design meet SHPO requirements
